

CONTRÔLEUR

```
graph TD; C[CONTRÔLEUR] <--> M[MODÈLE]; C <--> V[VUE];
```

The diagram illustrates the MVC (Model-View-Controller) pattern. It consists of three components arranged in a triangle: 'CONTRÔLEUR' (Controller) at the top, 'MODÈLE' (Model) at the bottom left, and 'VUE' (View) at the bottom right. Each component is enclosed in a rounded rectangular box. The 'CONTRÔLEUR' and 'MODÈLE' boxes are light blue, while the 'VUE' box is a darker blue. Bidirectional communication is shown between the Controller and both the Model and the View, indicated by double-headed black arrows.

MODÈLE
