

CONTRÔLEUR

```
graph TD; C[CONTRÔLEUR] <--> M[MODÈLE]; C <--> V[VUE];
```

The diagram illustrates the MVC (Model-View-Controller) pattern. At the top is a blue rounded rectangle labeled 'CONTRÔLEUR'. Below it, on the left, is a light blue rounded rectangle labeled 'MODÈLE', and on the right is a light blue rounded rectangle labeled 'VUE'. Two black double-headed arrows connect the 'CONTRÔLEUR' box to the 'MODÈLE' box, and another two black double-headed arrows connect the 'CONTRÔLEUR' box to the 'VUE' box, indicating bidirectional communication between the controller and both the model and the view.

MODÈLE

VUE
